

23.8 feet above normal pool in the closed to navigation position and 110.0 feet in the open to navigation position. Navigation on the waterway consists primarily of commercial tugs with tows. The U.S. Department of the Army, Rock Island Arsenal, has requested a temporary deviation from the normal operation of the bridge so that annual maintenance and repairs can be performed.

This deviation is for the period 8:00 a.m. on December 31, 1997 until 8:00 a.m. on February 28, 1998. It requires that the draw of the Rock Island Railroad and Highway Drawbridge remain closed to navigation. The drawbridge operation regulations, when not amended by a deviation, require that the drawbridge open on signal.

Dated: January 20, 1998.

T.W. Josiah,

Rear Admiral, U.S. Coast Guard, Commander, Eighth Coast Guard District.

Drawbridge Operation Regulation; Black River, Canadian Pacific Railway, Soo District, WI

AGENCY: Coast Guard, DOT.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Eighth Coast Guard District has issued a temporary deviation from the regulation governing the operation of the Chicago Milwaukee and St. Paul Railroad Drawbridge swing span drawbridge across the Black River at mile 1.0 at LaCrosse, Wisconsin. This deviation allows the bridge to remain closed to navigation from Tuesday, January 6, 1998, through Thursday, February 5, 1998. This closure is necessary to facilitate removal and rebuilding of mechanical devices to avoid problems during the next navigation season.

DATES: The deviation is effective from Tuesday, January 6, 1998, through Thursday, February 5, 1998.

FOR FURTHER INFORMATION CONTACT:

Roger K. Wiebusch, Bridge Administrator, Director, Western Rivers Operations, (314) 539-3900, extension 378.

SUPPLEMENTARY INFORMATION: The Chicago Milwaukee and St. Paul

Railroad Drawbridge has a vertical clearance of 16.9 feet above normal pool in the closed-to-navigation position. All locks in the U.S. Army Corps of Engineers St. Paul District have been closed for the winter and this has greatly reduced the amount of commercial navigation in the LaCrosse area. Local marine industry have stated that they anticipate no problems with the closure.

This deviation requires that the Chicago Milwaukee and St. Paul Railroad Drawbridge remain closed to navigation from January 6, 1998 through February 5, 1998. The drawbridge operation regulations, when not amended by a deviation, require that the drawbridge open on signal if at least two hours notice is given.

Dated: January 20, 1998.

T. W. Josiah,

Rear Admiral, U.S. Coast Guard, Commander, Eighth Coast Guard District.
